# Awakening Inspired Living

*What's my life all about anyway?* The answer is simple—we are spiritual beings having a human experience. Inside each of us there's an inner Spirit wanting to fully express the qualities of love, truth and life. We have an “earthsuit” of body, mind and heart through which we express these qualities. Aligning with our inner Spirit and living from that place is the most fulfilling life imaginable. This is inspired living.

Through our personal example, our programs and support, we provide opportunities for all who wish to awaken to their unique inspired living. We offer the following:

## Inspiration for Life

- Weekly inspirational worship service with attunement
- *Transformation Group*. Weekly small group
- *Pulse of Spirit* weekly inspirational mailout
- Retreats—gently guided self-reflection

## Education in Life's Principles

- *Spirituality Now*—one day event
- *Spirit in Action*—correspondence course
- In depth courses several times a year. See our calendar / website for current details.

## Attunement

A spiritual practice, increasing our alignment with inner Spirit. By so doing, our “earth suits” naturally come into balance and we have a sense of “being on track”. We offer:

- 1:1 Attunement sessions
- Learn how to share attunements with family and friends. Courses available.

## Community

- Join others on their path of self-discovery.
- Membership is available:

## What do we understand about Life?

*My life has purpose.*

*I am a spark of Life- a spark of the Divine*

*As I grow, I remember I am that spark*

*My body, mind and heart are designed to express who I am.*

*Experience is more important than belief for me.*

*My life unfolds gracefully as I learn how Life works.*

*I remember who I am when I'm with others doing likewise.*

*As I remember, I know my life has an even higher purpose.*
